

KU co- hosts 6th World Congress on Nanomedical Sciences

Srinagar, Jan 08: University of Kashmir is co-hosting the 6th World Congress on Nanomedical Sciences (ISNSCON-2018) which started on Jan 07, 2019 at Vigyan Bhavan, New Delhi.

The Congress will provide a platform to scientists to share a common dais and directly interact with globally renowned academicians, researchers and medical professionals, including Nobel laureates, from the area of Nanomedical sciences and allied fields.

Earlier on Monday the 3-day Congress was inaugurated by eminent national and international scientists including Prof. Talat Ahmad, Vice Chancellor University of Kashmir.

Meanwhile the University of Kashmir, led by the Department of Nanotechnology, will conduct a day long technical session on “Nanotechnology in Drug and Vaccine Development” in the Congress on Jan 9, 2019.

It is for the first time that the University of Kashmir is co-hosting such an international congress representing almost 30 countries.
