

Research Methodology: KU hosts 6-day workshop for scholars

Srinagar, Dec 23: To augment the comprehension of cutting-edge research methodologies within the Sciences and providing a comprehensive platform for research scholars from various institutions, the Kashmir University (KU) is hosting a six-day research methodology workshop.

The varsity's UGC-Malaviya Mission Teacher Training Centre (MMTTC) is organising the workshop tailored for research scholars exploring diverse disciplines within the realm of Sciences.

Experts from diverse sectors, including academia and industry, attended the inauguration.

During the inaugural session, Director MMTTC, Prof Mushtaq Ahmad Darzi underlined the significance of fostering collaborative learning and nurturing innovative endeavours within the expansive research community.

The workshop, featuring renowned experts in the field, is expected to offer an enriching experience for all participants promising insights and expertise to aid scholars in their research pursuits.

Anticipation runs high for a collaborative and knowledge-intensive six-day workshop setting the stage for an immersive engagement where participants will benefit from shared knowledge providing fertile ground for academic exchange.

Dr Adil Gani from KU's Department of Food Science and Technology coordinated the function.
